Project Title: Succulent Plant

I think this topic could work as a multi page with clean geometric design modeling the form of the plant. Since succulents themselves hold so much visual interest. I think it would flow nicely with a photograph and overlaid text as the introduction to each new page as you scroll.

- **Introduction**-- close up photo of an interest succulent for draw, catchy headline

Subsections

- **Definition**
- **Appearance**
- **Habitat**
- **Families and genera**
- **Cultivation**
- **Sources** -- page for sources, link to wikipedia, photos, etc.
